25X1A

SUBJECT: Redraft of PSB D-23, "U.S. Psychological Strategy Based
[redacted]"

25X6

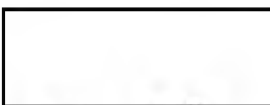

A redraft of the Summary of this plan has already been distributed; the enclosure incorporates the modifications in the plan itself to make it correspond to the summary. The changes are minor, and the greater portion of the attachment is accounted for by the necessity to rearrange the tasks and undertakings and their action assignments in the light of the separation of USIA from the Department of State.

The data for the financial appendix required by the NSC action are not yet complete.

25X1A

It will be appreciated if you can advise the Executive Secretary of the Panel, [redacted], of agreement to the enclosure by the close of business, August 26, 1953, so that the completed redraft for Board action on September 2, 1953 may be prepared and distributed promptly.
